General introduction I

Chapter I

Introduction 01

1-Crude oil building up01

1. Crude oil origin : kerogen01

2. Oil deposit building up.02

2-Oil Traps :03

* The Two Types of Traps04

a) Structural Traps04

b) Stratigraphic Traps.04

3- Crude oil extraction techniques 05

1. Exploration and prospection. 05

2. Drilling of crude oil deposits. 06

3. Oil recovery08

4. Impact of technology evolution. 09

4- Crude oil handling 09

1. Distillation. 09

2. Cracking and reforming. 10

Table of content

| | |
|--|----|
| 3. Conclusion of oil handling | 11 |
| 5- Crude oil derivatives..... | 12 |
| 1. Energy use oil derivatives | 12 |
| 2. Fixed production rates | 12 |
| 6- Hydrocarbons classification | 13 |
| 1. By origin..... | 13 |
| 2. Liquid hydrocarbons classification | 13 |
| 3. Agro-fuels, bio-diesel and alcohol type..... | 15 |
| 4. By quality | 15 |
| 7- Crude oil transport and storage | 17 |
| 1. Oil transport | 17 |
| 2. Oil storage | 18 |
| 3. Conclusion for oil transport and storage..... | 18 |
| Conclusion | 18 |

Chaptre II drilling technique

| | |
|---|----|
| Introduction..... | 20 |
| 1- History..... | 20 |
| 2- Methods of drilling..... | 21 |
| 2-2 Cable-Tool Drilling..... | 21 |
| 2-2 Rotary rig types | 22 |
| 3- Drilling fluids (mud) | 23 |
| 3-1 Types of drilling fluid | 24 |
| 3-2Function..... | 24 |
| 3-3 Factors influencing drilling fluid performance..... | 25 |

Table of content

| | |
|---|----|
| 4- Rock bit | 25 |
| 4-1 Types of Drill Bits..... | 26 |
| 5- drill string | 27 |
| 5-1 Drill string components..... | 27 |
| 6- Drill pipe | 28 |
| 7- Directional Drilling..... | 29 |
| 8- Horizontal drilling | 30 |
| 8-1 Definition and Immediate Technical Objective | 30 |
| 8-2 Drilling Methods and Some Associated Hardware | 31 |
| 8-3 Some New Terminology..... | 32 |
| Conclusion..... | 33 |
| | |
| Chapter III: maintenance of drilling rigs | |
| Introduction:..... | 34 |
| I- Components of oil drilling rigs..... | 34 |
| 1- Derrick | 37 |
| 2- Drill floor | 38 |
| 3- Crown block | 38 |
| 3-1 maintenance :..... | 39 |
| 4- Traveling block | 39 |
| 4-1 maintenance : | 39 |
| 5- Drill line | 40 |
| 5-1 maintenance :..... | 40 |

Table of content

| | |
|---|-----------|
| 6- Swivel..... | 40 |
| 6-1 maintenance | 41 |
| 7- Draw-works | 41 |
| 7-1 maintenance | 41 |
| 8- Rotary table..... | 42 |
| 8-1 Components..... | 43 |
| 8-2 maintenance and preventive | 43 |
| 9- Mud pump..... | 44 |
| 9-1 Classification..... | 45 |
| 9-2Composition..... | 45 |
| 9-3 Performance Parameters | 47 |
| 9-4 Characteristics | 48 |
| 9-5 Maintenance | 48 |
| 10- Shale shakers | 49 |
| 10-1Structure | 50 |
| 10-2Causes of screen failure | 52 |
| 10-3API standards..... | 52 |
| 10-4 Shale shaker technicals parameters | 52 |
| 10-5 The maintenance of vibrating motor..... | 53 |
| 11- Mud tank | 53 |
| 11-1The role of mud tank for solids control | 53 |
| 11-2The classification of mud tank | 54 |
| 12- Blowout preventer BOP | 54 |
| 12-1 Use | 55 |

Table of content

| | |
|------------------------------------|----|
| 12-2 Types | 55 |
| 1*Ram blowout preventer | 56 |
| 2* Annular blowout preventer | 57 |
| 12-3 Control method | 58 |
| Conclusion | 59 |

Chapter IV : Work-Over operation

| | |
|--|-----|
| Parte one:..... | .60 |
| Introduction..... | 60 |
| 1- Well Equipment..... | 60 |
| 2- Type of accident in well..... | .63 |
| 2-1 During drilling operations | .63 |
| 2-2 Incidents during casing operations..... | 65 |
| 2-3 Incidents during logging operations..... | 65 |
| 2-4 Well problems during production | .66 |
| 1- low of production : | .66 |
| 2- Problem of Water and gas coning | .66 |
| 3- mechanical problem in a well..... | .67 |
| 3-Cause of accidents..... | .68 |
| 3-1 Causes linked to the state of the equipment used | 68 |
| 3-2 Causes related to the personnel..... | 68 |
| 3-3 Causes related to difficult drilling conditions..... | .69 |
| 4-Types of well work | 70 |

Table of content

| | |
|---|----|
| Part two: Work-over..... | 72 |
| Introduction | 72 |
| 1- Definition of work-over | 72 |
| 2-Applications | 72 |
| 3- Types of work-over:..... | 72 |
| A- Work-over corrective | 73 |
| B- Work-over preventive | 73 |
| 4-Reasons of work-over | 73 |
| 5-Work-over Operations | 74 |
| 6-Steps in Work-over Operation | 75 |
| 7- Tools of work over | 75 |
| a) External Catch Tools | 75 |
| b) Internal Catch Tools | 77 |
| c) Tools of bit and detachments..... | 79 |
| d) Tools of cut tubing materiel | 80 |
| e) Tools to repair casing | 80 |
| f) Milling Tools | 80 |
| g) Tools to recuperate rubble and scrap | 82 |
| h) Tools divers | 83 |
| Part III : case study..... | 84 |
| 1) Objective | 84 |
| 2) Essential points | 84 |
| 3) Potential problems | 84 |
| 4) Economic parametres | 84 |
| 5) Well technical details..... | 85 |
| 6) Well history | 87 |
| 7) Present well conditions..... | 88 |

Table of content

| | |
|--|-----|
| 8) Procedure | 88 |
| 9) Equipment..... | 91 |
| Conclusion | 94 |
| Chapter V | 95 |
| Management of Safety:..... | 95 |
| Introduction | 95 |
| 1- Objective | 95 |
| 2- Important rule | 95 |
| 3- Principles:..... | 95 |
| 4- Safety policy | 96 |
| 5- Responsibilities..... | 96 |
| 6- Jobsite Safety Meeting..... | 97 |
| 7- Tools | 98 |
| 8- Housekeeping | 98 |
| II. Personal Protective Equipment (PPE) | 99 |
| 1- Responsibilities | 99 |
| 2- Hazard Assessment and Equipment Selection | 99 |
| 3- Establishing a PPE Program | 99 |
| 4- Training | 100 |
| 5- Engineering Controls..... | 100 |
| 6- Work Practice Control | 100 |
| Protection equipment..... | 101 |
| 1- Eye Protection | 101 |
| 2- Head protection | 101 |
| 3- Ear Protection..... | 102 |
| 4- Feet protection | 103 |
| 5- Hand protection | 104 |
| 6- Body protection..... | 105 |
| 7- Respiratory Protection..... | 106 |

Table of content

| | |
|--|-----|
| 8- Protection Personal Fall Arrest Systems:..... | 107 |
| 9- Fire Safety..... | 107 |
| 9-1 Fire tetrahedron | 107 |
| 9-2 Classes of Fires:..... | 108 |
| 9-3 Fire Extinguishers..... | 108 |
| 10- Warning Systems and Emergency Alarms | 110 |
| Conclusion :..... | 110 |
| | |
| General conclusion | II |
| List of figures | III |
| List of tables | IV |
| Summery | V |
